

WEST FORK BEAVER CREEK DISTRIBUTION SYSTEM

\*\*

1974 ASSESSMENT

\*\*

\$ 330.00

FORWARD:

The 1974 Water Assessment is based upon the total acres of ground as listed on file in this office, as owned by each water user.

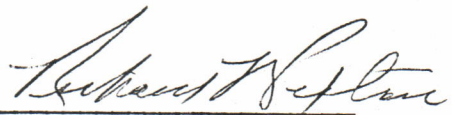

CALCULATION OF ASSESSMENT:

The files of this office show that a total 2,994.48 acres of ground are irrigated. Therefore, \$ 330.00 divided by 2,994.48 equals \$ 0.1102, cost of one pro-rated acre-of-ground in determining the over-all 1974 Assessment. This amount multiplied times each amount of area of ground per user equals his or her 1974 Assessment.

PROOF OF CALCULATIONS:

\$ 0.1102 times 2,994.48 acres equals \$ 330.00
